Mechanics of Rating

- Use only *red* ink or *red* pencil in rating proficiency examination papers. Do *not* attempt to *correct* the student's work by making insertions or changes of any kind.
- Use check marks [✓] to indicate incorrect or omitted answers in Parts 2 and 3. Do *not* place a check mark beside a correct answer.
- Record the credit for each part and subpart in the appropriate credit box on the student's answer sheet.
- Record the total examination score (the sum of the credits the student received for each part) in the appropriate space in the box in the upper right corner of the answer sheet.
- Check carefully for mechanical errors (e.g., addition). Using a calculator might be helpful.
- Write your initials clearly in the appropriate space on the answer sheet.

Part 4

The primary purpose of this part is for the student to demonstrate the ability to write in the target language using the four functions of language as the vehicle for communication. These functions of language are: socializing, getting others to adopt a course of action, getting and providing information, and expressing personal feelings about a given topic. Instructions concerning the rating of Part 4 are included in the publication *Second Language Proficiency Examinations, Directions for Administering and Scoring.*

In this part, students are to choose two of the three tasks provided and write a note of at least 30 words in the target language to achieve a specified communication purpose. A word is defined as a letter or collection of letters, surrounded by space, that in the target language is comprehensible and contributes to the development of the task. This definition applies even when words are grammatically incorrect. When counting words, please note that names of people are not to be counted. Place names and brand names from the target culture count as one word (all other places and brand names are disregarded), and contractions are counted as one word. In addition, salutations and closings are counted, as well as commonly used abbreviations in the target language.

The responses to each note must be written in the student's own words; no credit should be given for a response that is copied or substantially the same as material from other parts of the examination. Each note is worth a maximum of five credits and must be rated according to the writing rubric for Part 4, which is provided below. This writing rubric measures the dimensions of purpose/task, vocabulary, structure/conventions, and word count on a zero-to-four scale for each dimension. A writing checklist is also provided for use in rating student responses. The writing checklist requires reference to the full writing rubric for the definitions of each dimension at each level and is not intended as a substitute for the writing rubric.

After rating the student's response for each dimension, the scores for the four dimensions must be added, resulting in a total raw score for the response. The conversion chart must be applied to that total raw score so that the proper credit is given to the student for the question. For example, if a student received a performance level score of 3 on the dimension of purpose/task, a score of 2 on the dimension of vocabulary, a score of 2 on the dimension of structure/conventions, and a score of 4 on the dimension of word count, the student's total raw score would equal 11 (the sum of the four performance level scores). According to the conversion chart, a raw score of 11 represents a converted score of 4 credits for the question.

Part 4 Conversion Chart						
Total Raw Score	14–16	11–13	8–10	5–7	2–4	0–1
Total Credits	5	4	3	2	1	0

The conversion chart for Part 4 is shown below:

After each of the two questions has been scored, the two converted scores must be added together to determine the total Part 4 score. This total Part 4 score should be entered in the lower box of the last page of the student answer booklet and also under the "Credit Earned" section for Part 4, on the upper right corner of the first page of the student answer booklet.
