SCORING KEY

Mechanics of Rating

- Use only *red* ink or *red* pencil in rating proficiency examination papers. Do *not* attempt to *correct* the student's work by making insertions or changes of any kind.
- Use checkmarks [✓] to indicate incorrect or omitted answers. Do *not* place a checkmark beside a correct answer.
- Record the credit for each part and subpart in the appropriate credit box on the student's answer sheet.
- In Parts IIA, IIIA, and IV, if more than the required number of questions have been answered, rate only the required number, in the order in which they appear on the student's answer sheet.
- Record the total examination score (the sum of the credits the student received for each part) in the appropriate space in the box in the upper right corner of the answer sheet. *At this time*, any fractional credit should be raised to the next credit.
- Check carefully for mechanical errors (e.g., addition). Using a calculator might be helpful.
- Write your initials clearly in the appropriate space on the answer sheet.
